## INTERIOR

This Interior Collection has a great variety of styles from modern, transitional to traditional and country. We have large products for grand settings to practical and decorative pendants and flushes for more compact dwellings. We have something for everyone.

Model shown: KL-CITY-LOFT-P-M

KL-CITY-LOFT-P-M

 $<sup>^{^{*1}}</sup>$  Supplied with 2 x 152mm & 2 x 305mm rods.

Model shown: FE-RUBIN-ISLE

The clear, faceted glass shades of the LED Rubin lighting collection serve as the central design element and add a romantic elegance and sparkle to these contemporary fixtures. A clean, sleek look is achieved with round and rectangular chandeliers which will be perfect in a foyer, living or dining room. Or a more playful, fanciful statement can be made by clustering pendants together to create a look that's reminiscent of a floral bouquet.

FE-RUBIN-ISLE

Code	Description	Height	Width	Min. Drop	Max. Drop	Projection	Finish	Max. Wattage
FE-RUBIN4	4 lt Chandelier	521mm	537mm	621mm	1992mm <sup>*1</sup>	537mm	Polished Nickel	4 x 3W LED G9 *4

<sup>&</sup>lt;sup>4</sup> Supplied with LED G9 bulb(s) = 300Lm each, 3000k.

Model shown: FE-PAVE-P-M & FE-PAVE1

Inspired by the craftsmanship of fine jewelry, a Crystal inlay is coupled with the Polished Nickel finish and White Shantung Silk shades in each fixture of the Pavé lighting collection to add sparkle in an unexpected way. This transitional design delivers vibrant elegance to any room's design without overpowering the rest of the beautiful décor.

FE-PAVE-P-M

 $<sup>^{^{*1}}</sup>$  Supplied with 1524mm.  $^{^{*2}}$  Supplied with 3 x 305mm & 1 x 152mm rods.

#### ADONIS, **DURY & STEWART**

Adonis has clear, water glass surrounding another opal etched glass and a soft, clean relaxed country design makes this distinctive double glass treatment a unique pendant with its warm Dark Cherry finish. Dury is a 4lt pendant chandelier with a wire cage finished in an aged silver leaf. A classic hanging pendant, Stewart is simple lighting done right. The clear glass bowl maximises light output and is available in a Western Bronze finish.

Code	Description	Height	Width	Min. Drop	Max. Drop	Finish	Max. Wattage
QZ-DURY-P	4 lt Pendant Chandelier	368mm	533mm	470mm	2908mm *2	Century Silver Leaf	4 x 60W E14
QZ-ADONIS-P	3 lt Pendant	750mm	457mm	845mm	3283mm*1	Dark Cherry	3 x 60W E27
QZ-STEWART-WT	3 lt Pendant in Western Bronze	648mm	305mm	762mm	2007mm*1	Western Bronze	3 x 60W E14

<sup>\*1</sup> Supplied with 2438mm. \*2 Supplied with 1219mm.

This fresh contemporary collection from Elstead Lighting is a great choice for a chic home or contract application. The white polycotton shades have white acrylic diffusers and the simple architectural frames are finished in Brushed Nickel. The wall light has double directional LED spotlights, each with individual switches.

> Bespoke shade options available

**BELMONT-3W**

 $<sup>^{^{\</sup>circ 1}}$  Supplied with 2 x 300mm & 2 x 150mm rods.

#### **CARNEGIE**

Like an aspiring singer bursting upon the world famous concert hall stage, Carnegie is a radiant and nostalgic inspired design. The exposed lamping is ideal for LED Edison style bulbs to add an elegant touch whilst keeping the energy consumption down. Available in an Imperial Silver finish.

Code	Description	Height	Width	Min. Drop	Max. Drop	Projection	Finish	Max. Wattage
QZ-CARNEGIE6-IS	6 lt Chandelier	572mm	648mm	800mm	1588mm *1	-	Imperial Silver	6 x 60W E27
QZ-CARNEGIE8-IS	8 lt Chandelier	762mm	864mm	953mm	1791mm *1	-	Imperial Silver	8 x 60W E27

 $<sup>^{\</sup>circ 1}$  Supplied with 2 x 150mm & 2 x 300mm rods.  $^{\circ 2}$  Supplied with 3W LED G9 bulb = 300Lm, 3000k.

Theater Row is a perfect circle tooled in an elegant way, alongside the exposed bulbs, for which we suggest our 8W LED Edison style bulb for best effect, there is a central spotlight on the ceiling fittings. Theater Row brings old New York elegance to lighting.

Madison Manor has gentle curves and optic glass accents that tie in the symmetry of this beautiful collection. The Imperial Silver finish highlights the glass accents and the white linen shades.

#### **MADISON MANOR** & THEATER ROW

QZ-THEATER-ROW6IS

Code	Description	Height	Width	Min. Drop	Max. Drop	Projection	Finish	Max. Wattage

<sup>\*1</sup> Supplied with 3048mm of chain.

This traditional chandelier brings an American interpretation to designs inspired by the undulating and curvaceous vines of the great vineyards of Europe. Like French Country antiques of the early 1900s, these pieces have gracious details and beautiful appointments, that are highlighted with the Aged Tortoise Shell finish.

FE-SONOMAVALLEY9

Code	Description	Height	Width	Min. Drop	Max. Drop	Finish	Max. Wattage
FE-SONOMAVALLEY9	9 lt Chandelier	965mm	787mm	1045mm	3585mm *1	Aged Tortoise Shell	9 x 60W E27

<sup>\*1</sup> Supplied with 3048mm of chain.

The Woodstock pendants are contemporary oval metal cage fittings in Textured Black finish with contrasting brushed steel candle tubes and holders to soften the look. Both models come supplied with four drop rods giving up to 5 height options when being installed.

#### FE-WOODSTOCK-P-L

Code	Description	Height	Width	Min. Drop	Max. Drop	Finish	Max. Wattage

 $<sup>^{^{*1}}</sup>$  Supplied with 3 x 300mm & 1 x 150mm rods.

With both masculine and feminine influences, the transitional Botanic lighting collection by Feiss is a study in contrast. The spun metal drum captures the richness of an antique patina with natural variations. Then, elevating the piece is a dynamic Clear Pressed glass diffuser with a subtle floral gesture, which is then highly polished to generate breathtaking sparkle for a wholly modern look.

Code	Description	Height	Width	Min. Drop	Max. Drop	Finish	Max. Wattage

## AUDRIE, **BLUFFTON** & KATERINA

The Audrie pendant marries a glamorous Hollywood regency silhouette with modern LEDs nested in the vertical body frames, emitting a warm glow from the kinetic, mobile-like pendant. The Bluffton 3 light pendant has an industrial inner shade that gives a dark ambient light when used with Edison style lamps. The Katerina is truly a work of art, with two architectural arms securing a crystal-like glass and a cleverly concealed light source, for an ultimately sophisticated design. Features a sleek backplate.

Model shown: FE-OBERLIN-P-M

The stunning, modern Oberlin collection offers dramatic orbs beautifully adorned with graduated Clear Rondure beads, making a design statement in a foyer, living or dining room. A decorative cap is included for installation without the removable bottom clear orb. The medium and large models have two integrated LED modules to shine light from the top and bottom to illuminate the acrylic beads.

<sup>\*1</sup> Supplied with 3W LED G9 bulb(s) = 300Lm each, 3000k.

# **KITCHEN**

The use of decorative light fittings in the kitchen has become a common choice as part of the overall design. This collection shows our most commonly chosen models used in kitchen spaces, breakfast bars and serving areas, most of which are transitional and vintage based styles. They are also often used in bars and restaurants as the majority of pendants are height adjustable to maximise versatility.

This Grande fitting is flexible with three adjustable knuckle joints and is suitable for either a wall or pendant application. The Provence range is offered in a Polished Copper finish.

# **BATHROOM**

This stylish range of products has been specifically designed for use in the bathroom environment, although they can also be used elsewhere within the home. Offering a choice of both classic and transitional designs, these fittings will add style and elegance to any bathroom setting. All of these products are IP44 rated, which is the water ingress rating required in many countries for bathroom lighting, making them suitable for Zones 2 and 3. G9 LED lamps are supplied with all fittings listed with G9 lamp holders.

HK-LANZA3-BATH Page 177

Taking traditional inspiration, the Pippin bathroom light has a backplate with classic lines, nicely framing a White Sugar glass shade. IP44 bathroom rated and supplied with a G9 LED lamp.

# HINKLEY

**6** IP44

Avon's updated traditional style features a clean, minimalist design with cast detailing. The collection is finished in Chrome with Cased Opal glass that provides a crisp, even lighting. The Bennett bathroom rated wall light by Hinkley has petite arched arms and latches, while the pressed prismatic glass adds a dash of vintage panache. The sophisticated Baldwin bathroom wall light is IP44 rated and its highly polished chrome backplate is completed with a tapered square opal glass.

The Garden Zone Collect & Connect system is incredibly simple and safe to use, allowing up to 12 fittings to be connected together over a distance of 30m. With a comprehensive selection of fittings, you will find the ideal solution for any landscaping requirement. These fittings are guaranteed for 5 years against structural failure and the LED modules are guaranteed for 2 years.

# The bright way to light up your garden!

The Garden Zone Collect & Connect low voltage, energy saving lighting system is a great way to add style to any garden landscape. The system uses high power LED lights offering excellent light output with exceptionally low energy consumption. A wide selection of stylish light fittings including ambient, spot and deck lighting options are available. In such case, a Starter Kit can be purchased with the option of adding additional fittings if required.

# **PLEASE NOTE**

Garden Zone Collect & Connect cannot be mixed with the Garden Zone Professional range.

Dimensions: H: 73MM W: 30MM SPIKE: 350MM

Light Source: 3 X 6 \* 0.1W LED

IP Rating: IP54

# PROFESSIONAL COLLECTION

### LANDSCAPE AND GARDEN LIGHTING

The Garden Zone Professional Collection offers a versatile selection of high quality, easy to install and energy efficient products for all parts of the garden landscape, designed for use by professional gardeners, landscapers and architects.

Using our excellent low voltage plug & go system allows a large number of fittings from the Garden Zone ranges to be connected together over a distance of up to 80 metres. Furthermore, all the fittings within the plug & go series use LED light sources, which have very good light output properties alongside exceptionally low energy consumption. Added to this we offer a complementary range of 240V energy efficient models in matching designs as well as range accessories to ensure the widest possible choice.

# PLUG & GO: HOW IT WORKS

Step 1: Choose the areas you want to have lit, then we suggest that you sketch a rough plan view of each area involved.

Step 2: Choose the fittings which will suit the requirements and list them out with the quantity of each where relevant. Be careful to bear in mind the voltage of the fittings chosen. All 240V fittings will need mains supply to wherever they are to be installed whereas all plug & go models just need to be connected into the low voltage cable (as shown right).

Step 3: Measure the distance involved for the plug & go models chosen and determine, from the cable set options available which cable set or sets will be needed. Remember, up to 80 metres of cable can be used from 1 LED driver but the wattage loading must not exceed the recommended minimum, maximum (see accessories page 259).

Step 4: Plan where the mains supply will originate from. With the plug & go system you have a choice of placing the LED driver/drivers in an IP rated wall box on an exterior wall. However, depending on how large an area is involved, sometimes more than one mains feed may be needed in different locations. Consultation with an electrician is advisable on this matter.

The Garden Zone Plug & go fittings use a unique single pin, 2 pole plug and as such are not compatible with any other product or system. Currently they are not dimmable but they will work when wired via a timer.

# Guarantee / Life Expectancy

All Garden Zone fittings are guaranteed against structural failure for 5 years and 2 years for the LED units. The LED lamps have a minimum life expectancy at 80% plus efficiency for 20,000 hours. Typically if on 4 hours per day, 365 days per year, than this equates to around 14 years of life. The 2 year Guarantee is only valid when exclusively using Garden Zone cables, fittings and drivers.

# Repair Service

Outside of the 2 year Guarantee we offer a chargeable full maintenance and repair service to fittings. This is conducted in our own workshops and the service includes replacement material parts and wiring repairs.

### GZ/DRIVER 11W

11W (min. load 3W, max. load 11W)

140mm long x 25mm wide IP66

### GZ/DRIVER 28W

28W (min. load 9W, max. load 28W) 200mm long x 30mm wide IP66

Drivers are supplied with 30cm of cable. Each fitting is supplied with 1.5m of cable.

### **IMPORTANT:**

All fittings should be plugged in prior to switching power on.

### GZ/Cable set-6M

Cable set for plug & go fittings 6 metres long with 5 plugs spaced 1 metre apart for up to 5 fittings

### GZ/Cable set-10M

Cable set for plug & go fittings 10 metres long with 9 plugs spaced 1 metre apart for up to 9 fittings

### GZ/Cable set-16M

Cable set for plug & go fittings 16 metres long with 15 plugs spaced 1 metre apart for up to 15 fittings

It is not often that one can find products made to original styles and to original quality levels like in the old days. Our Bronze family is our premium range of products that we believe achieves this. They are manufactured from heavy cast bronze (except models Bronze9 and Bronze20 which are produced from solid natural copper)\* and chemically treated to give a natural looking Aged Bronze or Verdigris finish .\*\*

All of these classic designs are supplied with our 12V plug & go system using high power LED's making them energy efficient, yet easy to use and install.

### TECHNICAL ADVICE & INFORMATION

### PRODUCT WARRANTIES/GUARANTEES

GENERAL 2 YEAR GUARANTEE. All fittings supplied from this catalogue, both interior and exterior, have a manufacturer's minimum guarantee of 2 years. This means that in normal and fair service, (and without incorrect or inappropriate installation or location), any product sold by Elstead Lighting or its partners should have no fault develop within a minimum of 2 years from purchase. Any fault that is found is covered by guarantee to be repaired or replaced at the suppliers cost, within this period.

ALL Elstead warranties/guarantees do not cover out of pocket expenses or consequential costs.

LIMITED LIFETIME WARRANTY - This warranty relates to certain ranges/models shown in this catalogue which are produced of materials that have an exceptionally long life expectation, such as solid brass lanterns. These fittings may age over time, but will not deteriorate to an extent where they will no longer function for the purpose intended. The "Limited" element relates to component parts such as rubber seals, lampholders etc. which are repairable but are not covered by the Lifetime warranty.

- 15 YEAR WARRANTY AGAINST STRUCTURAL FAILURE Those models listed as having a 15 year warranty are guaranteed, that from purchase to within 15 years of normal use, the fittings will not deteriorate to any extent where they experience any structural failure. There may be signs of aging, corrosion or paint fading, but the integrity of the construction of these fittings means they will not deteriorate to any extent where they are rendered unusable within a lifetime of 15 years.
- 2, 3, 5, AND 10 YEAR ANTI-CORROSION GUARANTEES Many outdoor fittings have anti-corrosion guarantees stated on each relevant page. This guarantee relates to the corrosion of paintwork on cast aluminium or steel fittings, and excludes locations within 5 miles of the coastline. Fittings that have been damaged, repainted or cleaned with an aggressive cleaner may be excluded.

Prior to agreeing to replace any fittings, the company reserves the right for the original seller or a representative of the company to inspect the damaged parts and for photographic evidence to be supplied.

COASTAL COLLECTION 20 YEAR GUARANTEE - These fittings are designed to be placed in the toughest of conditions including right by the coastline without exclusion. This guarantee covers protection of the finish against corrosion or UV degradation.

COASTAL COLLECTION 5 YEAR ANTI-CORROSION GUARANTEE - This guarantee relates to the corrosion of paintwork on composite parts. In the instance that fittings have been damaged, repainted or cleaned with an aggressive cleaner they may be excluded from the entitlement to a replacement. Prior to agreeing to replace any fittings, the company reserves the right for the original seller or a representative of the company to inspect the damaged parts and for photographic evidence to be supplied.

LED MODULE AND PIR SENSOR GUARANTEES - Within this catalogue there are a number of products incorporating PIR sensors or LED modules. Whilst the fittings themselves may have varying physical guarantees against corrosion, these electronic parts are covered by a 2 year guarantee against failure. After this period, they are still repairable and serviceable, either by the company or local supplier.

#### **GENERAL NOTES**

- 1. FINISHES. Many of the finishes used on these ranges are hand applied (patinated) and some small variations and irregularities in the finish are to be expected. This is part of the process of manufacture and, far from being a problem, it is an important part of the nature of hand made and hand finished items
- 2. LAMP-HOLDER TYPES. Most fittings are constructed with either E14 lamp-holders (small Edison screw, sometimes referred to as SES or with E27 lamp-holders (standard Edison screw, sometimes referred to as ES. Appropriate E14 and E27 lamps are widely available in a range of styles, wattages and lights sources including incandescent, compact fluorescent and LED. Some of these lamp-holders are now supplied with threaded skirts, together with candle tubes and shade rings. This means that these products can be used either as a fitting with candle tubes and candle lamps, or with glass using the shade ring. Additionally we make certain fittings which use G9 and GX53 lamps. Lamps are usually supplied with these fittings.
- 3. WATTAGES. Most fittings shown in the catalogue are shown with Maximum Wattage recommendations. These recommendations are calculated mainly by heat capability, as there is a correlation between heat and wattage. However, in many countries traditional incandescent lamps, such as 100W GLS are no longer available. There are now many new versions of lamps in the market, lower wattage but similar light performance such as halogen replacement, compact fluorescent and LED. Most fittings wattage capacity and certification has been based on the criteria using an Incandescent lamp and so when choosing lamps, please take care to ensure that wattages specified are of no more than the equivalent original incandescent lamps. In the case of LED, the wattages are far lower, but some of these can still run very hot, not dissimilar to incandescent of much higher power.
- 5. FLUSH CONVERT/DUAL MOUNT. A few of the chain models are constructed so that they can be easily modified from a chain fitting into a semi-flush fitting. Note that once converted to semi-flush it is not then possible to easily convert back to a chain fitting, as some re-wiring is likely to be required.
- 6. CUSTOMISATION. Some of our ranges supplied in matt black can be relatively easily patinated into finishes such as Black/Gold, Black/Copper etc. Equally, for chain suspended fittings that need extra chain and cable, these can also be relatively easily undertaken. Both such modifications may incur longer lead times and will have small additional costs added to the price. (See current Elstead Terms and Conditions.). Beyond this, with appropriate lead time and client budget, more specialised changes can be undertaken such as different colours completely, changes to dimensions and design modifications and even fully bespoke fittings can be considered due to our varied manufacturing resources available.

### **EXTERIOR FITTINGS**

- 1. INSTALLATION CARE AND MAINTENANCE. When installing all outdoor lights it is recommended to lightly grease all threaded parts and screws / nuts to ensure that fittings can easily be disassembled for cleaning or lamp replacement. When handling certain fittings / finishes such as polished copper they can easily finger mark, so it is recommended that bare hands on these surfaces is kept to a minimum. Please retain receipt and installation instructions for future reference.
- 2. FINISH MAINTENANCE. Many of our fittings are supplied in a natural finish, i.e. Polished Copper un-lacquered and Teak wood. These fittings

### TECHNICAL ADVICE & INFORMATION

can naturally age over time or to maintain their original appearance, treatment is needed, such as oil for teak, beeswax for brass and light oil for Copper and Stainless Steel. When handling finishes during maintenance, small marks may show which can be easily polished away if required. The alternative is to allow the material to age and weather naturally, which does no harm to the fitting. Additionally, when installing cast aluminium fittings, a light coating of beeswax or oil can give the finish extended life, especially when in coastal areas. For all models, we highly recommend that exterior fittings are cleaned once per year with fresh water and oiled or waxed to give longer service. Lenses and glasses also benefit from cleaning but take care with polycarbonate or acrylic as these materials can easily scratch if any abrasive cloth is used.

3. IP RATINGS. All exterior fittings have an IP (Ingress Protection) rating which is a declaration of how much protection any product has against the ingress of both water and dust / particles. The minimum rating for an outdoor luminaire exposed to rain should be IP23 and the maximum can be up to IP68 (this can vary in different countries) which means the fitting is submersible. Most of our fittings are IP44 or greater and some of the Landscape models are up to IP67 meaning they can be covered by water up to a depth of 150mm, such as in-ground lights. See table below for full classifications. Typically, the higher the numbers, the higher the performance.

#### **BATHROOMS**

Some of the products featured in this catalogue state an IP rating such as IP44. The term IP stands for Ingress Protection and relates to the product's ability to protect electrical parts from ingress of moisture and water. In particular, this is relevant for products being used in Bathroom locations. For installation and compliance purposes, bathroom spaces have been divided up into zones 0 to 3 and this diagram shows how lighting in a Bathroom should be planned based on these zones.

1st Digit	Short Description (Protection against ingress of solid bodies)	2nd Digit	Short Description (Protection against ingress of moisture)
0 1 2 3 4 5 6	Non-Protected Protected against solid objects greater than 50mm dia. Protected against solid objects greater than 12mm dia. Protected against solid objects greater than 2.5mm dia. Protected against solid objects greater than 1mm dia. Dust-protected Dust-tight	0 1 2 3 4 5 6 7	Non-protected Protected against dripping water falling vertically greater than 50mm diameter Protected against dripping water when the Luminaire is tilted up to 15° from its normal position Protected against spraying water falling on the Luminaire at any angle up to 60° from the vertical Protected against splashing water from any angle Protected against water jets from any direction Protected against water jets from any direction Protected against immersion in water under defined conditions Protected against continuous submersion under manufacturers specified conditions

### COMPLIANCE/APPROVALS

All products within this catalogue conform with the European Union Low Voltage Directive, BS EN 60598-1:2008, the product standard for luminaires recognised across Europe and all fittings are CE marked. Every luminaire is individually tested by Elstead Lighting to ensure that the product is electrically sound and meets the company's quality standards. A unique test / batch number is then applied to the fitting. Please contact us for further details or advise us of your local needs.

We are manufacturing members of the UK Lighting Industry Association and conform to all aspects of the Lighting Industry Association Code of Practice for luminaire production.
